1. Dry lay all tile pieces out on top of the coping pieces before installing. Make any necessary cuts with a grinder using a diamond blade.
2. Mix equal parts of marble dust and Type S white cement.
3. Apply the tile 1/8" from the bottom of the coping.
4. Use a wooden block to distribute pressure to set all the tiles equally to the bond beam.
5. Mix equal parts of marble dust and Type S white cement for the joints.
6. Use a rubber trowel to apply the grout in the joints.
7. Wipe off excess mortar twice or more with a clean sponge.
8. Wipe off the haze with a dry cloth.

Disclaimer: Applicable to Marmiro Stones® Products & Suggested Installation Guidelines

The following installation information is provided to assist Marmiro's customers with installation, maintenance and usage decisions. It is understood that the installation, maintenance and usage employed by each customer is outside the direction and control of Marmiro Stones® and as such, is strictly and completely the choice and responsibility of each customer and their installer. Marmiro Stones® expressly disclaims any and all asserted claims which may arise directly from information contained in this document(s), including but not limited to, loss of rights, materials, personal injury or other potential injury. Marmiro Stones® and its agents and employees are held harmless against any loss, damage, claim, suit, or loss to any property, or violation of any applicable laws or regulations resulting from, or in connection with, the sale, transportation, installation or use of our products by the buyer.
